This article has been retracted at the request of the editor as the authors have plagiarized part of a paper that had already appeared in *Journal of Chemical Physics*, Vol. 118 (2003) 7112–7118. DOI: [10.1063/1.1560932](https://doi.org/10.1063/1.1560932). One of the conditions of submission of a paper for publication is that authors declare explicitly that their work is original and has not appeared in a publication elsewhere. Re-use of

any data should be appropriately cited. As such this article represents a severe abuse of the scientific publishing system. The scientific community takes a very strong view on this matter and we apologize to readers of the journal that this was not detected during the submission process.
